

Official CV Guidelines for Upcoming Placements

MANDATORY COMPLIANCE

To ensure a uniform and professional standard across all candidate profiles for the upcoming placement drive, all students must adhere strictly to the following Curriculum Vitae (CV) formatting guidelines.

1 General Formatting & Personal Details

- **Photograph:** A professional photograph in the official college uniform is mandatory.
- **Name & Salutation:** Include your full legal name. Salutations (e.g., "Dr.") are only to be used if applicable and legally held.
- **Contact Information:** You must use your official IIHMR University college email ID.
- **Professional Links:** Include your LinkedIn profile URL, hyperlinked to your name. Optionally add a GitHub URL or published thesis link if highly relevant to the role.

2 Academic Information

- **Course Nomenclature:** The degree must be written exactly as it appears on the official university website (e.g., MBA – Hospital and Health Management).
- **Educational Background:** Clearly state full names of previous schools/colleges, with their geographic locations.
- **Grading Format:** All academic scores (10th, 12th, Graduation, etc.) must be presented in Percentage (%) only — do not use CGPA or SGPA.

3 Internships & Professional Experience

- **Summer Internships:** Your primary Summer Internship must be prioritized and placed at the very top of the "Internships" section.
- **Work Experience Criteria:** Work experience is listed under "Experience" only if the tenure was at least 6 months; shorter tenures go under "Internships".
- **Organization Details:** State the employer's name exactly as on their official website, along with the city/state of placement.

4 Skills & Certifications

- **Skill Justification:** Only list skills you are highly proficient in. Be prepared to justify and defend every listed skill during technical and HR interviews.
- **Certifications:** The exact duration of each certification course must be explicitly mentioned alongside its title.
